

Historical Tour to Ladakh

The Department of History is recognized for its student-focused approach to education, with a strong emphasis on integrating co-curricular activities with traditional coursework. This tour was organized as part of this educational strategy. During the academic year 2021-22, 42 postgraduate students from the Batch of 2020 participated in the tour, which took place from September 10th to 16th, 2022. The seven-day journey was supervised by two faculty members and one non-teaching staff member from the department. The faculty members who accompanied the students were Dr. Abdul Rashid Lone, who served as the tour in-charge, Dr. Tauseef Mushtaq, and Mr. Peer Aijaz, who provided logistical support.

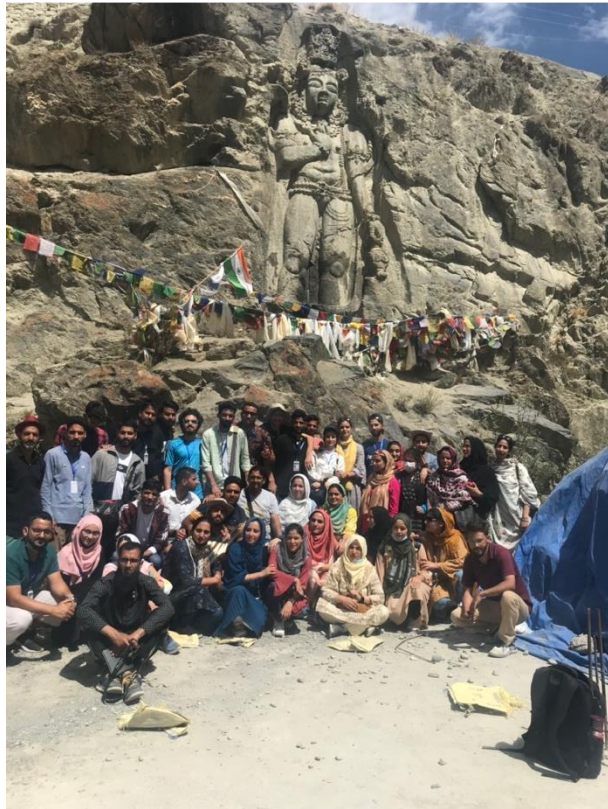

Known for its rich Buddhist heritage, Ladakh is home to numerous ancient relics, including statues, monasteries, and artwork that reflect its deep cultural roots. The primary objective of this tour was to familiarize students with the surviving antiquities of the area and to foster a deeper understanding of history through its architectural legacy. Additionally, visits to the museums in Leh and Kargil provided valuable insights into how history is preserved and presented through artifacts left by previous generations.
